EXPERIENCE

Edubot

June 2025 Aug 2025

AIML Intern

- Built a system to predict product demand using historical sales data, promotions, weather, and seasonal trends.
- Performed data preprocessing, analysis, and feature engineering to improve prediction accuracy and reliability.
- Deployed an interactive Streamlit dashboard to provide real-time insights and support smarter inventory decisions.

PROJECTS

Railway Management System

- Developed a railway management platform using Next.js, TypeScript, Supabase, and Groq AI APIs.
- Implemented ticket booking and real-time train delay prediction features.
- Designed predictive maintenance alerts to improve operational efficiency.
- Built an analytics dashboard to monitor system performance and key insights.

Algorithms Visualization Tool

- Built a GUI-based visualization tool using Python and PyQt.
- Visualized sorting, searching, and pathfinding algorithms with real-time execution flow.
- Designed an interactive interface to demonstrate algorithm behavior and time complexity.
- Displayed step-by-step execution to help users understand algorithm logic clearly.

CROP GUARD: AI-Powered Leaf Disease Identification and Prevention System

- Developed a scalable web-based platform for AI-driven leaf disease detection and prevention support.
- Integrated OpenAI GPT for real-time interactive AI assistance using natural language processing.
- Implemented secure authentication, personalized dashboards, session booking, and performance tracking.
- Built RESTful APIs for efficient frontend-backend communication with multi-user support.

EDUCATION

SRM Institute of Science and Technology

2023 2027

B.Tech in Computer Science and Engineering

Andhra Pradesh, India

- **Coursework:** Data Structures, Algorithms, Databases, Computer Systems, Machine Learning
- **Research:** Pothole Detection & 3D Reconstruction (Depth estimation using CNNs); PPE Detection using CNNs in collaboration with UTP Malaysia

SKILLS

Languages: Python, Java, C, C++, JavaScript (Node.js, React.js), HTML/CSS, SQL

Tools: GitHub, VS Code, Jupyter Notebook, Google Colab, Notion

CERTIFICATIONS

Oracle Certified Professional: Java SE 17 Developer

Feb 2026
